EDUCATION

Georgia State University | Honors College — ***Atlanta, Georgia***
Bachelor of Business Administration in Computer Information Systems — ***Expected May 2029***
Concentrations: Artificial Intelligence Analytics and Application Development
Academic Honors: President's List, GPA 4.05

SKILLS

Data & programming: *Microsoft Excel, SQL, Python, JavaScript, TypeScript, React, HTML/CSS, Java*
Tools & platforms: *Git/GitHub, Auth0 (OAuth), Google Maps API, ElevenLabs, Squarespace, watchOS/Swift*
Certification: *Microsoft Office Specialist (MOS)*

EXPERIENCE

OMG Events Management Co., Ltd. — ***Ho Chi Minh City, Viet Nam***
Strategic Partnerships & Website Designer – Albuquerque — ***August 2023 – March 2024***

- Independently designed and developed a **5-page Squarespace website** for VIMF, featuring **10 manufacturing industry categories** and **3 downloadable business resources** to support exhibition marketing.
- Produced **2 promotional videos** (introduction and recap) and presented the website to business representatives in Albuquerque, New Mexico.
- Conducted outreach to approximately **10 prospective speakers**, documenting company information, presentation topics, and business interests to support exhibition planning.

Viet Anh Light House — ***Ho Chi Minh City, Viet Nam***
Event Leader — ***October 2022 – November 2022***

- Led a **30-member event team** and developed an Excel-based tracking system to coordinate responsibilities, monitor assignments, and manage virtual event preparation.
- Directed the collaborative creation and testing of **100 interactive PowerPoint slides** featuring Morse code challenges, scavenger hunts, and music quizzes for a virtual Halloween event.

PROJECTS & LEADERSHIP EXPERIENCE

Hacklanta '26 — 36 Hour Hackathon — ***Georgia State University***
AuraBeat | GitHub | Devpost — ***October 2026***

- Developed **2 interactive concert modes** using React, TypeScript, and Python to translate musical rhythms into synchronized visuals, lyrics, and haptic feedback.
- Implemented **5 music-responsive Apple Watch haptic cue types** (beat, bass, build, chorus, and drop), connecting real-time audio analysis with a watchOS application.
- Integrated **ElevenLabs AI voice agent** to control concert lighting, visual intensity, and sensory preferences through natural-language commands.

HackHERS 2026 — MLH Best Use of Auth0 Winner — ***Georgia State University***
HerBuddy | Live Demo | GitHub — ***September 2026***

- Independently developed a functional campus safety application featuring **buddy matching, walking navigation, and destination-based safety alerts**.
- Implemented **Auth0 OAuth authentication** for GSU email-based sign-in and integrated Google Maps APIs to calculate walking-time estimates and support safety workflows.
- Integrated **ElevenLabs AI voice assistance**, designed customizable UI themes, and used Git/GitHub to merge independently developed features with teammates' contributions.

National Student Data Corps — ***Georgia State University***
Event Coordinator — ***January 2025***

- Managed NSDC's Panther Involvement Network (PIN) page, publishing and coordinating approximately **5 campus events**, including event descriptions and promotional content.
- Developed an **Excel-based event tracker** and coordinated room reservation requests, event logistics, and student-facing communications.
